

NUHAN HABIB

CSE Graduate | Software & Web Development · PHP · Python · SQL
Dhaka, Bangladesh | 01754418168 | 16nuhan@gmail.com | linkedin.com/in/nuhan-habib | github.com/nuhanhabib

PROFESSIONAL SUMMARY

B.Sc. graduate in Computer Science and Engineering (BRAC University) seeking a Software and Web Development role. Built and published three PHP web projects on GitHub (ReadSphere, Inventory Management System, The Modern Barber), along with Python projects including a 3D game and a computer vision thesis. Skilled in PHP, Python, SQL, with strong problem-solving, analytical and communication skills.

EDUCATION

BRAC University — B.Sc. in Computer Science and Engineering *2022 – 2026*
Graduated | Undergraduate thesis completed and defended

Comilla Shikha Board Govt Model College — Higher Secondary Certificate *2018 – 2020*
Science | GPA: 5.00 / 5.00

Comilla Zilla School — Secondary School Certificate *2012 – 2018*
Science | GPA: 5.00 / 5.00

PROJECTS & RESEARCH

PHP Web Projects — ReadSphere, Inventory Management, The Modern Barber *Personal Project — PHP · MySQL · HTML/CSS*

- Built and published three PHP projects on GitHub (ReadSphere, an inventory management system, and The Modern Barber).

Crowd Density Estimation in Religious and Public Gatherings Using Computer Vision *Undergraduate Thesis*

- Designed a CSRNet++-based deep learning pipeline (VGG-16 frontend, dilated backend, CBAM attention, multi-scale fusion) to generate real-time crowd density maps for safer public monitoring; worked in a research team from ideation to final defense.

Khabo Ki? — AI-Powered Pocket Food Detective *Next Gen Ideathon 2025 · Finalist*

- Co-developed 'Khabo Ki?' an AI-based food-safety concept that estimates freshness, nutrition, and a safety score from a food image; selected as a finalist and presented to a judging panel.

Unsupervised Music Generation *Course Project — Neural Networks (CSE425/EEE474)*

- Built and compared LSTM Autoencoder, Variational Autoencoder (VAE), and Transformer models on the MAESTRO dataset, with full training and evaluation pipelines documented in an IEEE-format report.

Counter King — 3D Siege Defense Game *Python · PyOpenGL*

- Built a 3D siege defense game with procedural weather, automated intro sequences, and dynamic perspective switching.

SKILLS

Web & Software: PHP, MySQL, HTML/CSS, GitHub
Programming: Python, C
Data & Analytics: SQL, Excel, Power BI
AI/ML: Machine Learning, Computer Vision

EXPERIENCE

Executive Officer Intern — Infusions Tech *Oct 2026 – Present*

- Supporting engineering operations by coordinating technical tasks, monitoring project progress, maintaining documentation, and assisting with internal reporting to ensure smooth team workflows.

Technical Coordinator Intern — ZENTORRA *Jan 2026 – Mar 2026*

- Coordinated technical tasks and project workflows across the team, maintained daily requirement and progress documentation, and facilitated internal reporting to support ongoing technical operations.

Affiliate (Digital Marketing) — 10 Minute School *Apr 2023 – Jan 2024*

- Promoted online courses through digital content and outreach, building persuasion and community-engagement skills.

ACTIVITIES & INVOLVEMENT

General Member — BRAC University Computer Club *Mar 2022 – Oct 2024*

- Took part in programming activities, tech events, workshops, and skill-development sessions.

General Member — Robotics Club of BRAC University *Oct 2022 – Jan 2024*

- Took part in hands-on robotics practice sessions and technology-focused events.

CaseSpecs 3.0 — Participant *Inter-university business case competition (Spectrum)*

- Analyzed real-world business problems and presented strategic solutions.

CERTIFICATIONS & AWARDS

- Critical Thinking in the AI Era — HP Foundation (Dec 2025)
- Data Literacy — DataCamp (Dec 2025)
